Figure 1 displays a 4x4 grid of small tables, each representing a different combination of the four variables: 'number of children', 'number of children in the family', 'number of children in the household', and 'number of children in the family'. Each table has a header row with 'number of children' and 'number of children in the family', and a header column with 'number of children' and 'number of children in the family'. The cells contain numerical values representing the count of children.
